CARE PARTNER SUPPORT PROGRAM ♦

Care partners play an important role in ensuring the well-being of their loved one. To varying degrees and at differing times they provide emotional support, help with medications, assistance with physical challenges, advocate on their loved ones' behalf, and much more. The Care Partner Support Program aims to help Care Partners navigate their own Parkinson's journey, prevent burnout, connect to support and resources, provide connections with other Care Partners, and provide a safe and non-judgemental space to share and discuss their struggles, emotions, and journey in a confidential environment.

This 6-week online program will run as indicated below. Advance registration is required by the date(s) indicated below.

You will learn ways to implement yours and your partner's personal wishes, be able to reflect on your feelings, experiences and develop skills that will help you navigate this next stage of the journey. You will learn ways to practice focusing on your own health and self-care, connect and learn from others in the group who are on their own path with Parkinson disease.

SOCIAL CHAT GROUP ****NEW PROGRAM****

Did you know social isolation is bad for your health? Meeting new people, sharing a laugh, and staying connected are great ways to boost your mood, outlook, and overall health.

Our Social Chat Group is a light-hearted, drop-in social space where people impacted by Parkinson's can meet new people, get to know others in the Parkinson's community, share some laughs, and chat about life beyond Parkinson disease. After all, this community is so much MORE than a diagnosis.

Grab yourself a cup of coffee, tea, etc and join us online!

PARKINSON'S WELLNESS RETREAT

We are excited to share that plans are underway for our 3rd annual Parkinson's Wellness Retreat. We'll share details as soon as they are available.

Join members of the medical community and PAA Staff for a unique getaway for people with Parkinson's and their Care Partners. Individuals and couples welcome! This multi-day retreat will include hiking and other physical activities, education in the form of fireside chat style conversations with medical professionals, creative endeavors, mindfulness work, and social time.

In 2024, twenty-eight people joined Drs Fang Ba and Davide Martino as well as PAA staff for three days in the beautiful Rocky Mountains in Canmore. We had great conversations, went on a few hikes, practiced stretches, yoga, and mindfulness techniques, drummed, painted, and ate great food. We also laughed...a lot! Whether it was during the day, over drinks at a local pub or while making s'mores over a bonfire. We made great connections, and you will too at the 2025 Parkinson's Wellness Retreat. Watch for details coming soon!

Physical therapy is a great way to get some individualized physical support. Physiotherapists use hands-on therapy, exercises, stretches, and more to help people address their unique challenges and concerns. PAA is pleased to work with registered physiotherapists Cari Cooke (Edmonton) and Jackie Townsend (Calgary) to offer 1:1 appointments at both our Calgary and Edmonton office locations. Receipts will be provided as physical therapy is a health expense from a tax perspective and may be covered by your insurance. A credit card number is required to confirm 1:1 appointments.
